These events have been scored from the 3 DEVON events and the best attended/more easterly KERNO locations.

While Tehidy and Uphams were held on the same night the Tehidy event had elements of balloon finding and re-scaled maps [for one Green competitor] the Uphams results have been included but Tehidy excluded.

So, in addition, Tremough and Penhale Sands have not been included in the reckoning.

Few KERNO entered the DEVON events while more DEVON entered KERNO events. Congratulations to Steve Edmonds for taking the top spot on Green.
