

TAMAR LEAGUE 2010 TO 2011

This is the 11th [and final] report from the league compiler for this season. To keep the report to manageable proportions the table below has been compiled from 18 events from September 2010 up to the last event at Hustyn Woods on June 26th and for scores of 1000 and above [mostly]. The two clubs fixture lists have somehow arranged themselves that KERNO have held 10 events to Devon's 8. Short Green runners are disadvantaged somewhat as only three events have had that course offered so far.

Event Planners, Controllers and Organisers (the latter if they have not run) are credited with their average score for their official duties.

The number of events entered is also shown along with the average score for all events – this can be skewed as a mispunch equals nil points! To appear in the final tables competitors from one club must complete at least three events from their neighbouring club. While the whole number of events from the two clubs is 18 it is the best 10 scores, i.e. half the total plus 1, that count in the final table.
